Just reaching back out to see if we could meet next week about PBID and Angels Gate collaborations. There is also some urgency as I would like to discuss the PBIDs help in the CA Cultural District designation process. I am available Monday afternoon or most of the day on Tuesday?

Lorena and Eric,

I would like to meet with you both to discuss the further ways that Angels Gate Cultural Center and the PBID can collaborate. I feel that there are some major opportunities that we can work on together and would like to connect. I wish I would have connected more in the last two years as Executive Director, but now the organization is running much more smoothly and we want to coordinate with you all in new ways.

Thanks
